

LYNCH VS. VANDEVER.

FIFTH DAY'S EVIDENCE IN THE ELECTION CONTEST.

Several More Democrats Who Know Nothing of Interest—A Young Tough's Testimony Knocked Out by the County Clerk.

The sun shone warmly—in fact, a little too much so for comfort—through the windows of the office of E. H. Owen, yesterday morning at 10 o'clock, the hour appointed for the continuation of testimony in Joseph D. Lynch's contest for a place refused him by the voters of the Sixth Congressional District.

The reporters and Judge Campbell were on hand, and soon after the hour mentioned contestant's attorneys came rather wearily into court.

Attorney Roberts did not put in an appearance, on account of indisposition, and Messrs. A. N. Hamilton and Col. Howard conducted the examination for contestant. The evidence offered did not vary materially from that given heretofore, and the most interesting point in following the case is to observe how little testimony is found that is relevant, material and of weight on the side of the Altkoond.

The reader will have noticed how few prominent citizens have testified in the case, and the general character and make-up of the witnesses may be judged from the names and their business occupations, when they have any occupation at all.

B. SACCOGIO
sworn: I live on New High street, in this city; was enrolled for registration last October by Jerry Comocy. I did not vote, or offer to vote, at last election, because my name was not on the Great Register. I would have voted for J. D. Lynch for Congress.

J. K. COLE
sworn: Testimony exactly same as preceding, except that he did not give name of residence street, and was enrolled by Charlie Parsons.

J. J. CARILLO
sworn: I have lived in Santa Monica for six years. I was appointed deputy assessor by Bilderrain in October last, and enrolled five names for registration. I remember them. [Witness here enumerated a lot of unimpeachable Portuguese and Italian names.] They did not vote at the last election, because their names were not registered. They would have voted for J. D. Lynch. They have made affidavits to that effect. [Affidavits offered in evidence. Objected to by attorney for respondent, as well as all the latter part of testimony of witness.]

Cross-examined: Those men are in Ballona township now. I was working for Mr. Lynch though I am a Republican. I told these men that I had some friends on the Democratic ticket for whom I wanted them to vote. Did not specify their names.

JOSEPH VOGEL
sworn: I lived in Los Angeles in October and November of last year. Some one came to register me. I don't know who it was. I did not vote on last election day. Went to the White House precinct about 10 a. m. to vote, but the crowd was too large and I came away. My name did not appear on the Great Register, but the night before election the County Clerk registered me and gave me a certificate of it. I went again to vote at 4 p. m., but there were forty or fifty men in line, and I came away. I stayed an hour and a half in the morning. It might have taken me till sundown to vote. Would have voted for Lynch. I am in the saloon business here.

Cross-examined: I went into line at the White House polls in the morning. When I went there and stayed in line an hour and a half before I dropped out. There were about sixty or seventy men in line in front of me when I left. I have been in this county steady since last June, and have been in the saloon business since last September. I did not vote that day. There were about sixty or seventy men in line in front of me when I went into line that morning. I am the party who instituted the suit before Judge Brunson, last fall, to compel the County Clerk to register me. That suit was decided adversely to me after election. [Objected to by attorneys for contestant as immaterial.]

B. W. HALL
sworn: I was deputy assessor last fall; enrolled seven names; remember some of them [names them]. Some of the names I enrolled were registered. Lucas was enrolled by me between October 23d and 26th, and his name appears on the Great Register; don't know about the others; all enrolled between the same dates. White, enrolled by me, could not find his name on the register; neither could I find it. [Testimony as to White House, average.]

Cross-examined: I was around the polls all that day; not electioneering, particularly; voted for Lynch, but did not canvass for him.

W. L. COWAN
sworn: Live in Los Angeles; was enrolled for registration in October last by A. N. Hamilton. Did not vote, or offer to vote, because my name was not on the Great Register. Should have voted for Lynch. [Excused.]

[Judge Campbell here remarked that an amusing feature of the case was to see the deputy assessors trying to throw the blame of their ignorance of law, in enrolling names before their appointments were filed, upon the shoulders of the County Clerk. Col. Howard objected to this as premature argument which might have a tendency to prejudice the reporters against their side.]

ANGEL COLDAERA
sworn: Attorneys had some difficulty in finding out the residence of this terrestrial Angel, as he was not a native American evidently, and not familiar with the language. His testimony was that it took him fifteen minutes to vote at the White House, and that it would take a man two hours to vote there when 100 men were in line, as there were at times on election day. Couldn't tell how many were in line when polls closed—didn't know—too many—couldn't tell.

L. GOODFRIEND
sworn: Live in Los Angeles. Was at

White House polls all last election day. Polls did not open till 8 o'clock. Think the whole vote of that precinct is 1400 or 1600, and nine-tenths of it is Democratic.

Cross-examination: I saw one man near the head of the line drop out and get in again at the rear afterward. Don't know him. I went there before daybreak and got everything ready for voting. I had no watch, but another man told me it was nearly 8 o'clock and the polls were not opened yet. My business is a speculation in real estate and everything. I have no office. I was working for the Democratic ticket all that day; employed by Democratic County Central Committee, but was not paid anything.

County Clerk Dunsmoor appeared and took the stand. He said that he had noticed the paragraph in this morning's Herald in which it was stated that Charles Parsons testified that of twelve names which he handed in at the Clerk's office on the night of October 27th, only one, a Republican, was registered. Mr. Dunsmoor said that he had thereupon examined the registers and affidavits in question and found that they had all been entered upon a supplement issued before election; that he had not intended to enter them, as they were handed in after office hours, but had concluded to and did give them the benefit of the doubt and enter them. Hence the testimony of C. Parsons on this point was false. Recross.

J. M. METHVIN
sworn: I reside in Los Angeles, and was Deputy United States Marshal at the White House polls last election day. [Testimony as to long line, etc., as usual.] There was a double door at the polling place, and only half was open. When a man had voted he had to back out. I went to open the other half, and Marsh [one of the judges] pushed the table against the party went out of the line near the head, and in again at the rear three times. I told him to stop, and he did so.

Cross-examined: Willie Klein was one of the clerks there. I don't know the other. Two of the United States Marshals there were Democrats. I don't know the politics of the other. Some that dropped out of line and then got in again claimed that they did not have their numbers and had to get them.

W. N. GREEN
sworn: Mr. Green was one of the men registered by Charlie Parsons. Did not vote, as name was not on Great Register.

J. SPIKER
called: This Teutonic gentleman was somewhat exercised as to who would pay him his fees. He "kick-ed" most decidedly, and refused to testify until he was paid. Finally a promise of pay at 5 p. m. mollified him, and he was sworn.

Mr. Spiker proved to be a most enthusiastic Democratic witness. He testified as to the crowded condition of the White House polls. Hundreds were there waiting to vote when the polls closed, which was fifteen or twenty minutes before sundown. Republican voters were favored and Democratic voters were crushed to earth there, according to Mr. Spiker's patois English. The cross-examination was rather lively.

Mr. Campbell: What do you mean when you say Republicans were favored and Democrats were not? The Republicans were pushed forward and the Democrats were pushed back at the polls.

Mr. Campbell: Who did it?
A.: Policemen did—and others did it, too. I saw a good many pushed back, and they were all Democrats.

Mr. Campbell: Policemen and who else?
A.: They were Republican runners. I don't know who they were—you ought to know yourself, if you are a Republican [quite excitedly].

Mr. Campbell: Didn't these Democrats fight any when they were pushed back?
A.: No sir, they didn't. [To one who knows the pugna character of the average Democrat at elections, Mr. Spiker's evidence is very amusing.]

JOHN OSBORN
sworn: Reside in Los Angeles. Was at White House twice election day. Long string both times. Voted sometimes rapidly, sometimes slow. Couldn't tell whether it was quite sundown or not when polls closed. Think it was not.

Cross-examined: I don't know what the cause of slow voting was in the two particular instances I have mentioned; whether it was in looking for names or not.

GILES WESCOTT
sworn: Reside in Los Angeles, and was a deputy assessor in October last; enrolled fifteen names; remember some of them [names some of them]. I think I filed my appointment with the County Clerk October 29th. Affidavits of the fifteen offered in evidence. No further witnesses appearing, the hearing was adjourned to this morning at 10 o'clock.

Incorporated.
Articles of incorporation were filed, yesterday, by the Deutsche Evangelische Friedens-Gemeinde (German Evangelical Congregation of Peace), the purpose being to establish a German Evangelical Church for worship and religious training in this city. The trustees are Rev. Paul Brank, Alexander Schelling, Adolph Knoeb, Jacob Schaefer and Andreas Stoll.

(Advertisement.)
The Dry Sparkling Champagne Manufacturing Company of Los Angeles, California. Places \$30,000 of its stock on the market at par. It is stated that this company, though scarcely a month old, has received very marked encouragement. At a meeting of the Board of Directors, held yesterday, (Dr. Hamilton Griffin, president, in the chair, and a quorum) the company decided upon purchasing a lot on the corner of Leroy and St. James streets, and to erect buildings for extensive manufacturing purposes. The necessary machinery for manufacturing the champagne has been ordered, and will arrive in the course of a week or two. By reference to an advertisement elsewhere in this issue, it will be seen that \$30,000 of the company's capital stock is placed upon the market at par, in shares of \$100 each, and considering the competent board of management, comprising some of our best and most respected citizens, well known for their integrity, as well as their enterprise, together with a large field for the company's operations, and the immense profit to the shareholders, there is no doubt but the shares will be liberally subscribed for. Any information can be had at the company's office, 28 North Spring street, of the secretary, Mr. W. D. Breton.

JAYHAWKER.

HE USES HIS TOMAHAWK ON THE LEGISLATURE.

And His Scalping-knife on a Lot of Other Cattle—Moffitt, Higgins, Buckley, Freeman and Other Bosses—Boggs.

SAN FRANCISCO, March 9. [Special correspondence of THE TIMES.] In a recent number of THE TIMES I see that the editor seems to be in grief over the shortcomings of the California Legislature. The editor is wasting his time. The crimes, felonies, and neglects of the legislative branch of the Government are not matters of concern to the people. Society prepares the crime, the individual executes it. It is as applicable to social conditions in California today as it was to the French people when it was uttered. The scoundrels who are elected to the Legislature are no worse than the scoundrels who nominate and elect them. For years it has been a matter of common notoriety that members of the Legislature have been bribed in all manner of ways and for all sorts of purposes, yet nobody has ever seemed to think less of the penitentiary-deserving scoundrels who paid the bribes than they did of the pretendedly-honest citizens who were not in office. During the present session it has been charged in all the papers of this city that the members of the Legislature were being bribed, and the specific measures on which they voted, either to pass or defeat, were named, and with them the eye and the vote; but no member has ever thought of defending himself against the charge.

Senator Moffitt, the special pet of the Chronicle, and who owed his election to that paper and Senator Freeman, has been editorially denounced by that paper as guilty of a crime in trying to falsify the records of the Legislature, and that paper says of him: "No crime could be graver than this." We do not know that the annals of legislative corruption presents a case parallel to this. We doubt whether, in all the history of bribery and corruption, a case can be found where such a charge has been made against a legislator.

Every paper in this city, including the virtuous Chronicle, charged that San Rafael and \$21,000 at Sacramento, with which to bribe twenty-one Senators to vote against the Pilot Bill, and that Boss Buckley and Boss Higgins would participate in the rascality incident to its distribution. The Senators who voted on the measure were named in connection with the charge. Yet not one of them has ever risen to a question of privilege and denied the imputation, nor has any one brought a suit for libel. The reason is clear—they don't dare do it. Should they bring a libel suit, the proofs are easily within the reach of the papers which would be sued, and the machinery of the courts could be used to uncover it.

It is a felony, under the law of California, to engage in lobbying, but it is quite the proper thing to engage in bribery; hence the "bosses" of the Legislature, who are much courted by those having interests to promote or defend before the Legislature. If an editor charges the crime upon the criminal, and follows it up too closely, he gets on the wrong side of the law. The Legislature is a body of men, and a sympathizing community, acquits the murderer, and regards him as quite a hero.

An honest district attorney at Sacramento might succeed in having these scoundrels indicted, but the ordinary jury, like the ordinary legislator, would lay down his honor and oath on the altar of the "back," and there would be no conviction, because society in California does not condemn the criminal acts. A prominent official of the railway told me not long since that his company had been driven to pay bribes by its early necessities, and that until the present session of the Legislature it had never been in position to refuse the demands of the legislative robbers for money; and that in the past twenty years his company has spent as much in paying blackmail as they had paid in dividends. They took society as they found it, but they have not improved it by their line of policy.

That the "Boss" system is largely responsible for legislative and official corruption I have no doubt, for that system enables the boss to put his purchasable cattle in office. Two years ago, for instance, the State Librarian was elected, and that man has spent as much in paying blackmail as they had paid in dividends. They took society as they found it, but they have not improved it by their line of policy.

"A bookworm, is he?" said the sub-editor; then, he, I'm again him. I'll put any man in there who would take the books. And the cattle did not, but they did worse. Thanks to Assemblyman O. G. Alexander, of Alameda, the people are learning how the State Library is managed. And right here I want to predict that the bosses will find a way to punish Mr. Alexander. He is an honest, intelligent young man who has put out the ticket by the County Committee without his knowledge or consent; consequently, owed no obligations to anybody or gang. He has been one of the minority, with such men as Rose, who have been an annoyance to the scoundrels who own the majority of the votes, and if he is ever again a candidate, he will be beaten, if the bosses can encompass that end.

And Boggs—Boggs the Prison Director. I had almost forgotten Boggs. What a rare exotic he is, with which to grace the Senate chamber. Boggs was at the Capitol at the opening of the session. He was there to proclaim that he was opposed—unutterably opposed—to Hearst for Senator. He was loud and low in proclaiming that he was opposed to all jobs and patronage. Alas! poor Boggs did not just for his own sake, but for the sake of the people. He was a deep but quiet humorist, but the ignorant public thought he spoke in sober seriousness. So believed John P. Irish, Frank G. Newland and others, but they were wrong. But where is Boggs and his playful humor now? Gone to the bosom of St. Buckley, to repose in those brawny arms, where all the "Lambos" are sheltered. Buckley is a strong man (with hair on his breast), figuratively speaking, and cares for his own. Boggs went into the session of the Legislature with more character than any other man, and he comes out in the same way. But there are different kinds of character. Still he can cry, "What's in it for me?" and the answer will be "What's back to him hereafter." The wages of sin is death.

The only act of deception of which Senator Rose was guilty was his last one in the Senate, the reasons given by him for asking for an indefinite leave of absence. He was disgusted and ashamed to stay in that all job and patronage place, and he entered a plea of the necessities of his private affairs. I was sorry when he was elected, but he is the bearer of the sorrow now.

P. S. Cleveland did not nominate Frank Moffitt for Postmaster of Oakland. In fact, he gave the first official recognition that has been extended by the Administration to his American party, and nominated one of its friends for that important place. Senator Hearst (having urged Moffitt) says the appointment of Mr. Hanna gives him joy. So it does the decent people of Oakland.

Where is Alamitos Beach? For answer and maps write to G. W. Elwood, Long Beach, Cal. Seashells polished at Kan-Koo, 238 North Main street. Wholesale or retail.

Shirts made to order at Ragleson's & Co.'s, 50 North Spring street.

Robes and horse-blankets at Foy's saddlery.

ALAMITOS BEACH TOWNSITE.

This new seaside resort is located on the Pacific Ocean, 22 miles south of Los Angeles, and midway between the port of San Pedro and Anaheim landing. Alamitos Beach, Long Beach on the east, and has 10 miles of streets, which are to be neatly graded and lined with trees, and will be abundantly supplied with pure artesian water. An extra quality of pipe clay has been discovered on the townsite, which is now being moulded into pipe that is to conduct the water over the town. Three hundred thousand brick are burned and will soon be used to construct a vast reservoir. The facilities for hunting, fishing and boating are abundantly supplied by the New River and its broad estuaries.

The elevation of Alamitos Beach, giving a commanding view of the ocean, islands, mountains, harbors and towns, together with its beach, which is unrivaled for its bathing and driving facilities, secures it forever a place in the forefront of seaside resorts. Write for agency and maps to

G. W. ELWOOD, Agent, Long Beach, Cal.

RED CLOVER.

NEEDHAM'S Red Clover Blossoms and Rx

tracts prepared from the blossoms, cures Cancers, Salt Rheum and all diseases arising from an impure state of the blood; will also clear the complexion of all pimples and eruptions; is a sure cure for Constipation and many other diseases. Both laxative and tonic. Needham's Red Clover cures after everything else fails. For full particulars, testimonials of cures, etc., address the agent, M. CHURCH, Intelligence Office 35 S. Spring st. Los Angeles, next door to Childress Bank.

W. R. BLACKMAN, EXPERT ACCOUNTANT.

Partnership, Company and other accounts kept, investigated, arranged and arbitrated. OFFICE: Rooms 3 and 4, 117 New High st., Los Angeles.

Real Estate.

Real Estate on Monthly Installments.

Also, a Choice Tract of 90 Acres for Subdivision, and an Excellent Dairy, Corn & Stock Farm. For Sale Strictly on Their Merits.

No brass band at your expense, no free lunch, or houses given away, no by-bidding at auction sales, no lottery schemes required in selling property that has REAL MERIT; for those who reason for themselves and compare notes as to values and advantages of property we may offer over adjacent real estate. We are here to stay, have a due regard for public opinion, and, in the end, find it more pleasant and profitable to recommend such properties as have never failed to realize profit to purchasers. Among our best bargains are:

FIRST—An additional subdivision of 30 acres (the first 30 having been closed out at lower figures) lots 50 feet front, wide streets, 1 mile east of our city limits. GRAND VIEW mountains north, valley and ocean south, portion of city west; perfectly level; the only tract east of city limits having ITS OWN RESERVOIR. Besides, these lots have a new well, 80 feet of excellent water, large windmill and tank, for domestic purposes, free. Twenty thousand dollars is now being expended under contract on grading Second street alone, to be completed in 70 days. Fifty acres have been donated for a magnificent college. It is between the proposed cable and electric roads (partly complete) not far from street cars now running. PRICE \$100 PER LOT. Terms, \$30 down and \$70 monthly installments; no interest. Valuable developments will be made within the next 30 days, after which prices will be advanced.

SECOND—A beautiful tract of choice land for subdivision of 90 acres. A grand view, nearly all level; no alkali or adobe land; near our city limits; has an over-supply of excellent water; in the line of march of valuable improvements. ONLY \$400 PER ACRE. Terms to suit.

THIRD—One of the choicest dairy farms in this county, or unsurpassed for corn, alfalfa and stock; 144 acres, 12 miles from the city, on railroad, all fenced; good improvements, flowing wells, running stream; ¼ in alfalfa. A great bargain; non-resident owner. Terms to suit.

WE HAVE ALL KINDS OF CITY AND COUNTRY PROPERTY FOR SALE.

HUMPHREYS & RIGGIN, No. 20 South Spring Street.

HYDE PARK!

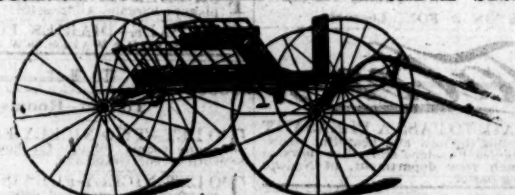

Charming new town on the line of the L. A. & S. M. R. R. now building from this city to the "New Harbor at La Ballona," 3 1-2 miles from city limits; overlooks the city of Los Angeles; plenty of good water piped to the lots; each lot 60x100 feet, fronting on 60-foot avenues. These lots are selling rapidly at \$100; \$40 cash, balance \$10 per month without interest. Also, 5 and 10 acre villa lots surrounding the town. Conveyances leave the office at 9 a. m. and 2 p. m. to show parties the beautiful property.

THE PUBLIC HEALTH.

SEVERAL BILLS THAT ARE HANGING FIRE.

In the Legislature—Bills of the Dead-Registry of Births, Deaths and Marriages—Of Interest to Boards of Health.

Among the numerous duties left undone by the expiring Legislature is that of passing some necessary measures affecting the public health. Several useful bills relating to sanitary matters were introduced into the Senate, but have not yet passed. Reference to the Committee on Hospitals, Senate Bill No. 110, "relating to the disposal of human dead bodies, and the preservation of the public health," is as follows:

Section 1. Section 377 of an act entitled "An Act to establish a Penal Code," approved February 14, 1873, is amended so as to read as follows:

Sec. 377. Every person who is charged with a duty relating to the registration of deaths, under chapter III, title VII, of the act to establish a Penal Code, approved March 12, 1873, who (1) willfully fails to keep a registry of the names, ages, residences and times of death of a decedent, or (2) willfully fails to register with the county recorder a certified copy of such registry, as is provided for in said chapter, or (3) willfully fails to grant a permit for the interment, removal or disposition of a dead human body, without the certificate provided for in said chapter, or (4) willfully violates any of the laws of this State relating to the preservation of the public health, is guilty of a misdemeanor, and is, unless a different punishment for such violation is prescribed by the laws of this State, punishable by imprisonment in the county jail not exceeding one year, or by fine not exceeding \$1000, or by both fine and imprisonment.

These are proper and necessary requirements, and the penalties imposed are none too severe.

Senate Bill No. 111, "relative to the interment of the remains of human bodies," is as follows:

Section 1. Section 3084 of the act to establish a Penal Code, approved March 12, 1873, is hereby amended so as to read as follows:

Sec. 3084. No person shall inter, remove or otherwise dispose of any human body in any city, county, or city and county, without having first obtained a permit. In incorporated cities, or counties, or cities and counties, the permit must be obtained from the health officer or board of health, or if the health officer or board of health is absent, then from the health officer or board of health, or if there be no health officer or board of health, then from a justice of the peace. The person applying for a permit must produce and file with the officer issuing the permit a certificate, signed by a physician, or a coroner, or two reputable citizens, setting forth, as near as possible, the name, age, color, place of birth, occupation, date, locality and cause of death of the deceased. And no permit shall be granted without the production of such certificate. Such certificate must be filed with the county recorder, and the person so filing is entitled to the compensation provided for in section 3077 of this code, but if any other registration of the death of the decedent shall have been made, the recorder must record the name but once.

There is nothing in any of the above requirements that is not proper and necessary. They are such as exist in other States, where these things are better regulated by law, and experience has shown them to be required by the demands of public health, as well as being necessary to the perfection of the death statistics of the community.

Senate Bill No. 112, "relating to boards of health," provides:

Section 1. Section 3092 of said act to establish a Penal Code is amended so as to read as follows:

Sec. 3092. The board of supervisors of each county must appoint in each unincorporated city or town of 500 or more inhabitants a health officer, who shall have the duties and powers of the board of health and health officer, as specified in this and the two preceding articles.

Sec. 2. There is added to said code a new section, to be called section 3094, which shall read as follows:

Sec. 3094. The board of supervisors must fix the salary or compensation of boards of health or health officers, or of two reputable citizens, setting forth, as near as possible, the name, age, color, place of birth, occupation, date, locality and cause of death of the deceased. And no permit shall be granted without the production of such certificate. Such certificate must be filed with the county recorder, and the person so filing is entitled to the compensation provided for in section 3077 of this code, but if any other registration of the death of the decedent shall have been made, the recorder must record the name but once.

Section 1. Section 3077 of said act to establish a Penal Code is amended so as to read as follows:

Sec. 3077. All persons registering marriages, births or deaths must at the close of every calendar month file with the county recorder a certified copy of their register. Each certificate must certify, as nearly as may be ascertained, the name in full, age, occupation, term of residence in the city or county, place of birth, whether single or married, widow or widower, sex, race, color, last place of residence, and also, when of birth, the sex and color of the child, and name and nativity of its parents. Each person filing such copy is entitled to a compensation of 25 cents for each birth, marriage or death so recorded, and the recorder must give a certificate of such to the person entitled thereto, stating the number of deaths, marriages or births recorded, and the amount due therefor. Upon the presentation of the recorder's certificate to the county auditor, he must deliver at once, without any order of the board of supervisors, a warrant for the sum due, payable out of the general fund of the county treasury, and the county treasurer is directed to pay the same. The auditor must report the amount of warrants so drawn each month to the board of supervisors.

Section 2. Section 3078 of said act to establish a Penal Code is amended so as to read as follows:

Sec. 3078. If at any birth there is no attending physician or midwife, the parents must make the report, and are entitled to the same compensation prescribed in the preceding section.

Section 3. Section 3080 of said act to establish a Penal Code is amended so as to read as follows:

Sec. 3080. The county recorder, at the close of each month, must transmit to the secretary of the State Board of Health, at Sacramento city, a certified statement of the register of births, marriages and deaths, prepared in a book prescribed by the secretary, and upon blanks furnished by him.

Sec. 4. Section 3083 of the act to establish a Penal Code is amended so as to read as follows:

Sec. 3083. Any person on whom a duty is imposed by this chapter who fails, neglects or refuses to perform the same is liable to a penalty of \$50 and costs of suit for each offense, to be recovered in an action by the district attorney of the proper county; one-half of the penalty to be retained by him for his services, and the remainder to be paid into the general fund of the county.

The secretary of the State Board of Health and the county recorder must inform the district attorney of any neglect of duty as prescribed in this chapter.

In the population statistics of a State nothing is more necessary to the completeness of the record than a correct enumeration, from time to time, of the people—the births, deaths and marriages in each community—by the local authorities thereof, who alone can properly do the work. The above bill provides the mode, with suitable penalties for non-compliance.

Senate Bill No. 114, also "relating to the preservation of the public health and safety, and the registration of births, deaths and marriages," is as follows:

Section 1. Section 378 of the act entitled "An Act to establish a Penal Code," approved February 14, 1873, is amended so as to read as follows:

Sec. 378. Every person charged with the performance of any duty under the law relating to the public health, and every person charged with the duty of keeping a register of births, marriages or deaths, and every recorder or other person whose duty it is to report to the State Board of Health, who willfully neglects or refuses to perform the same, and every person who willfully refuses to obey the rules and regulations passed by any board of health, or health officer having the powers of a board of health, is guilty of a misdemeanor, and is, unless a different punishment for such violation is prescribed by the laws of this State, punishable by imprisonment in the county jail not exceeding one year, or by fine not exceeding \$1000, or by both fine and imprisonment.

At the ranch of the estate of Rami Nadeau, deceased, near Florence, Los Angeles county, we will sell at public auction the following property:

1. A head of work horses and mules.
2. A head of cow.
3. A large Jersey bull.
4. A large freight wagon.
5. A four-horse wagon.
6. A two-horse wagon.
7. A gang plow.
8. A wheelbarrow.
9. A wheelbarrow scraper.
10. A common road scraper.

B. B. CASWELL,
Special Administrator of estate of Rami Nadeau.

SANTA BARBARA wants an ostrich farm.

The Ventura Free Press, says: "We get THE TIMES here the same day it is published. As soon as the road is through we will get it the same morning it is published."

It is announced that Atty.-Gen. Garland does not take a newspaper. Perhaps he would not have taken as much telephone stock if he had taken advantage of newspaper information.

The Senate, having passed the Retraction Slander and Libel Bill, it has again gone to the Assembly. The bill gives the boys a loophole to escape from when they make a miss hit.

The Lynch-Vandever contest force still drags its slow length along. The evidence yesterday was as stale, flat and unprofitable as usual, and notable only as showing the class of persons who compose the great bulk of Lynch's witnesses.

TOLEDO has outdone Chicago's famous proxy marriage sensation. In the former city a well-known young lady addicted to somnambulism was married in her sleep, and now denies the impeachment, although confronted by documentary evidence.

The Santa Barbara Press treats the news of the smallpox scare in Los Angeles sensibly and fairly, and concludes rightly that the report received there, that there were twenty new cases here in a single day, was an exaggeration. It was, indeed. Santa Barbara has taken ample precautions.

The Atlanta Constitution is authority for the statement that the visit of Rev. Dr. John Hall and Dr. Theodore L. Cuyler, eminent Presbyterian ministers of New York, through the South, has a great purpose in view—that of a union between the northern and southern Presbyterian churches in May next, when the two general assemblies meet.

The municipal ticket nominated by the Republicans of Oakland is considered strong and sure of election. It is headed by William B. Davis, whom the Oakland Tribune calls "a representative young Californian of the best type, branny, energetic, practical, well-read. He knows what Oakland needs, and has the force to help the city onward."

The Senate has refused to pass Brierly's constitutional amendment enlarging the duties and increasing the pay of the Lieutenant-Governor. "At this stage of the game," so to speak, "the chance of such amendment before the people would be simply hopeless. Looking at the San Bernardino statesman, and his peculiar and wonderful career in the 'cheer,' the average intelligent voter would be pretty sure to vote that the duties of the second elective officer in the State are large enough and his pay high enough already."

Capt. James B. Eads.

Death is busy among the great. Before Henry Ward Beecher is laid in the ground, the news is flashed over the wires that the eminent engineer, Capt. James B. Eads, is no more on earth. His name is associated with one of the great engineering works of the century, the Mississippi jetty system, over which there has been national contention, but which may be called a success with some qualifications. The proposed Eads ship railway across the isthmus of Tehuantepec is another of his great conceptions in engineering. Now that the author is dead, the chances of its scheme, whatever they may have been once, must necessarily be jeopardized to a greater or less extent.

James B. Eads was born at Lawrenceburg, Ind., May 20, 1820. He removed with his parents in 1829 to Louisville, and in 1833 to St. Louis, where he has since lived. In 1839 he served as clerk on river steamboats on the Mississippi, and in 1842 was active in forming a company to recover sunken property and raise sunken steamers on the Mississippi and its tributaries. At the outbreak of the civil war in 1861 he submitted to the Government a plan for the defense of the Western waters. He designed and constructed in 1862 and 1863 the first eight iron-clad steamers in the United States Navy. He afterward designed and built six iron-clad gunboats with rotating turrets. The gunboats that he built for river service materially assisted the Government in regaining control of the Mississippi, and were of immense advantage in assisting the land forces in many notable movements. He was the projector and constructing engineer of the Illinois and St. Louis bridge. The jetty system of deepening the entrance to the Mississippi was carried out by him at his own risk, in the face of the most determined opposition from army engineers, who declared his plans impracticable. Permission was at last granted him to experiment upon the most unfavorable pass. As a result, the largest ocean steamers can sail into New Orleans without difficulty through a channel where a fishing-boat could be navigated with difficulty a few years ago. Capt. Eads has of late years interested himself in the scheme of a Tehuantepec ship-railway. He has demonstrated the possibility of the construction of a railroad across the isthmus that shall carry the largest ships. He has worked for years to get permission of Congress to undertake the work. Permission was granted but a few days ago, but the projector's death probably ends the scheme for the present. As a bold and practical engineer, Eads was preeminent in his profession.

The Maricopa Railway.

An Arizona railroad enterprise of importance is the new Maricopa and Phoenix line. It is learned from President N. K. Masten, who was recently put at the head of the company, that nearly all of the grading on the railroad from Maricopa Wells to Phoenix has been done, and the contractors are now laying rails at the rate of half a mile a day. Since its inception the enterprise has had little smooth sailing until the present time. The greatest difficulty encountered was that of obtaining the right of way through the Pima and Maricopa Indian Reservation. This involved the passage of a special act of Congress, which, after much delay, went through both houses with an amendment tacked to it, by which it was stipulated that the consent of the Indians on the reservation was to be obtained and sanctioned by the President of the United States before the road could be built through the land of the Pimas and Maricopas. The consent of the Indians was easily obtained, as they were anxious that the line should be built. Grading had been commenced by the company in the meantime, but the contractors were ordered off the reservation, and it was not until February 24th that a telegram was received from Washington that President Cleveland had signified his approval of the consent of the Indians. Mr. Masten said that if it had not been for these delays the line would have been completed from Maricopa to Salt River by this time. A Howe truss bridge has been built by the company across the Gila river, and another will soon be thrown across the Salt River near Tempe. Enough rails are on hand to lay the track up to and across the Gila, and a sufficient number is on the way for the rest of the distance to Phoenix. Contracts for rolling stock and equipments have been let. The road will probably be opened by June 1st, and will form an important feeder to the Southern Pacific.

AMUSEMENTS.

GRAND OPERA-HOUSE.—A comic opera company under the leadership of Miss Adelaide Randall made its first appearance here last night in Offenbach's *Princess of Trebizonde*. The opera was not the best one to have chosen for the purpose, as it contains a good deal of dialogue, and the company is not strong in the spoken parts; the light jests become heavy, and even the local "gags" which were introduced felt comparatively flat. But in the musical part of the opera they do much better. Miss Adelaide Randall as "Princess Raphael" was charmingly dressed, and sang with great richness and expression. She has a very pleasing voice, of considerable volume and evidently well trained. In acting and in singing she is well qualified for the leading roles, and was honored with the largest share of the applause. The cast also includes James G. Peakes and Arthur W. Tams, both of whom assisted largely in the success of the piece. The other characters were all very fairly supported, and the choruses, although not powerful, went with excellent effect.

The orchestra, under the direction of Mr. Grueling, was sufficiently strong in numbers, and performed its part to the satisfaction of the audience.

STATE SPECIALS.

Important Railway Conference at San Francisco.

Managers Much at Sea on the Interstate Commerce Law.

Jeffrey-Lewis to Go Barnstorming as Harry Mainhall's Bride.

The State Viticulturalists to Exhibit California Products Abroad—Others' Citrus Fair—Fruit and the Airplane at San Bernardino.

By Telegram to The Times.

SAN FRANCISCO, March 10.—[Special.]

A meeting was held today by the Freight Agents' Association at the office of General Freight Agent Gray, of the Central Pacific Railroad Company. It was agreed to guarantee a continuance of the present schedule of freight rates until Saturday, the 19th inst.

The Interstate Commerce Convention, now being held at Chicago, is attracting much attention here among the railroad agents. It is claimed by eminent legal authority that several of the most important sections of the new law are capable of numerous interpretations, widely different in application, yet all equally correct. On this account some railroad officials claim that it will be, in a large measure, unenforced, its unpopularity would become so general as to ensure its repeal or material modification. In consequence of this uncertainty the Chicago convention has formulated two tariff schedules for both freight and passengers, one on a liberal basis, and the other on a more restrictive basis. It is not anticipated by railroad officials that anything definite will be learned from the convention until after the president has named the members who are to constitute the Interstate Commission.

THE COLTON FAIR.

Preparations to Make it a Success—A Big Time Expected.

COLTON, March 10.—[Special.]

Active preparations are making for the citrus fair to open tomorrow. The main exhibit is to be in the Hurst building, rooms 30 and 60. Another room of the same size, in the bank building near by, will be used for reception purposes. In front of these an open lot pavilion, 30x60, is going up, to be occupied for refreshments by the ladies of the Women's Christian Temperance Union. Exhibits are promised from Arlington, Lugonia, Crafton, Redlands, Old San Bernardino, Highland, San Bernardino, Colton, Colton Terrace, Ontario and Elizavinda.

Some fruit already in looks bright and handsome. Countless ladies and gentlemen are decorating the hall. On Friday there will be an excursion from Los Angeles. The Los Angeles Band will accompany and furnish music here. The fair will be given on Friday and Saturday, and if well attended will be continued next week. Admission will be free. There will be a concert in the Presbyterian church on Friday evening and a ball in the reception hall on Saturday evening. The fair is mainly promoted by the Colton Land and Water Company. Colton expects to have a big time.

A MUSICAL PROJECT.

San Francisco to Have the Finest Band in America.

SAN FRANCISCO, March 10.—[Special.]

This city has determined to have the finest band of musicians in America. The originator of the scheme is Fred Innes, the celebrated trombone player. He has proposed to the directors of the Mechanics' Institute to select sixty-five musicians, all artists, and to have them ready for performances at the Mechanics' Institute Fair, which opens next August. The directors have accepted his proposition. The band will be paid out of receipts of the fair, which, owing to this additional attraction, will be very large. The programme for the opening concert has already been arranged, and consists of seven classical compositions and a similar number of popular airs, besides a trombone solo by Innes. While many members of the band will be San Franciscans, Mr. Innes goes East in a few days to engage such players as he cannot secure here. The band will be a San Francisco organization, but will play in different parts of the country when not engaged here.

JEFFREYS-LEWIS.

Her Marriage to Mainhall Set for Saturday.

SAN FRANCISCO, March 10.—[Special.]

Miss Jeffrey-Lewis, the well-known actress, is generally characterized by those of her own profession as a "thoroughbred." There is no fence too high for her, and no difficulty too great that she cannot get round or over it. When she fell in love with young Harry Mainhall she insisted on his procuring a divorce from his wife, and paid all costs of the suit. She then divorced herself from her husband, in order to more securely marry the aforesaid Mainhall. Miss Lewis today secured the necessary license, and will be married privately on Saturday next, after which the happy pair will depart on a barnstorming tour through the Northwest.

TO EXHIBIT ABROAD.

California Wines to be Sent to the London Exposition.

SAN FRANCISCO, March 10.—[Special.]

The Viticultural Commissioners have decided to send a fine display of California wines to the American Exhibition in London, which opens May 24, provided the Central Pacific Railroad Company will cooperate in the matter. A committee composed of Charles A. Wetmore, Arpad Haraszthy and W. S. Marlowe, was appointed to confer with the railroad managers at the earliest date on the subject. A favorable answer is confidently looked for.

Fire at San Bernardino.

SAN BERNARDINO, March 10.—[Special.]

A thousand-dollar fire in the outbuildings of the King House occurred at 3 p.m. today. The fire department saved the hotel.

A Treat for San Bernardino.

SAN BERNARDINO, March 10.—[Special.]

The Musin-Trebelli concert tonight was to a small house, but was very satisfactory.

THE WHEAT BOOM.

Proposed Anarchist Parade at Chicago.—Mrs. Parsons in Jail.

CHICAGO, March 10.—[By the Associated Press.]

Oscar Neebe, the Anarchist, today selected Paul Gratka and George Schilling to deliver orations at his wife's funeral services in Miller's Hall on Sunday. Gratka was Neebe's predecessor as editor of the Arbeiter Zeitung, and was a prominent figure in the riots at Milwaukee last spring. Schilling is a noted local Socialist, labor agitator and ward politician.

Nothing of a religious character will enter into the ceremonies. It has been decided that the procession will only accompany the corpse to the city limits. Chief of Police Eberstadt says that no special police arrangements have yet been made regarding the proposed demonstration. He understands that "it is not to be a red flag affair." The Central Labor Union members say they will carry the regulation banners of the various societies composing the organization. Should they do so, there will be no absence of red flags, for the Socialists and their 12,000 members are almost without exception radically Socialist, and their bunting is a most vivid crimson. Each society is providing itself with a band of music for the occasion.

Sheriff Mason today decided that Neebe should, unmanacled, be allowed to accompany his wife's corpse to the cemetery, guarded by a single deputy.

PARSONS'S WIFE SENT TO JAIL.

COLUMBUS (O.), March 10.—Lucy Parsons, wife of the Chicago Anarchist, today on a charge of disorderly conduct, and was committed and placed under bonds of \$500 to keep the peace. The Mayor was acting under the statute which gives the court authority to commit for disorderly conduct in the presence of the court. Mrs. Parsons could not give the bonds, and was sent to the County Jail.

THE WHEAT BOOM.

The Nevada Bank Out of the Deal.—The Market Breaks.

SAN FRANCISCO, March 10.—[By the Associated Press.]

Referring to the special dispatches stating that the Nevada Bank was engineering the great wheat deal at Chicago, the cashier of that institution today stated to an Associated Press representative that the Nevada Bank was not interested in any way in the present upward movement in wheat. "Many of our customers are handling Chicago wheat, and this, I suppose," he added, "has led to the belief that the bank was operating on its own account."

Mr. Dresbach, one of the most prominent grain dealers, and president of the Produce Exchange of this city, interviewed on the subject, said: "The talk about the Nevada Bank being behind the 'bull' movement in wheat at Chicago is nonsense. The whole truth of the matter is that Chicago wheat, until lately, has been unusually depressed, and buyers here, seeing a good opportunity to purchase in Chicago at what they considered a low price, did so. This was one cause for the rise. Another was that the stock on hand here is much lighter than anticipated, and holders are not all disposed to let go. This was clearly shown on March 8th, when this city's wheat market closed at a high price, with a lack of late spring rains, a large proportion of the crops would prove a failure, and the rainfall in many places was late, and resulted in late seed."

Today's market was weaker, closing 3 cents under yesterday.

A BREAK IN WHEAT AT CHICAGO.

CHICAGO, March 10.—Shortly before noon wheat began to break off heavily, and there was a frantic rush to sell, which caused May delivery, which opened at 84½ cents, to decline to 83½ cents, or say 4½ cents, under the highest price yesterday. The market closed feverish at 10 o'clock at inside figures: Cash, 75½ cents; May, 81½ cents; June, 81½ cents.

WASHINGTON.

California Postmasters Appointed by the President.

WASHINGTON, March 10.—[By the Associated Press.]

The President appointed today the following named postmasters today: M. Byrne, Jr., Grass Valley, Cal., vice D. D. Swarth, commission expired; Isaac Thompson, Santa Clara, Cal., vice J. M. Billings, commission expired; Edward E. S. Baum, Hanford, Cal., vice J. Plummer, commission expired; Elsie, Dewitt, Yreka, Cal., vice A. Raynes, commission expired; Edwin O. Rollings, Oroville, Cal., vice John Smith, resigned; Hiram H. Colwell, Colusa, Cal., vice A. Palmer, removed; May Hughes, Fresno City, Cal., vice W. E. Hughes, deceased; A. F. McKenny, San Bernardino, Cal., vice W. R. Porter, resigned; Napoleon H. Brown, Yreka, Cal., vice S. S. Morrill, commission expired.

The President, this afternoon, appointed Charles H. May, of Virginia, to be Consul-General of the United States at St. Petersburg.

THE TIME EXTENDED.

The time for the reception of proposals for furnishing steel for guns and armor has been extended by the Secretary of the Navy from March 15th to March 22d.

JOHN SHERMAN.

He Says that His Southern Trip is Not a Political One.

JACKSONVILLE (Fla.), March 10.—[By the Associated Press.]

Senator Sherman said to a Times-Union reporter this morning: "I want you to correct an erroneous impression. While at breakfast, this morning, I saw in the Washington Star a long article setting forth the object of my trip to Florida, and stating that it was purely a political trip. The fact is, that I have not had politics mentioned since I left Washington. We were tired of Congress after it completed its work, and made up a party and started down here simply for recreation. I am out of politics just now. I do not want politics to enter my head for two weeks. I will not say a word about politics until I reach Nashville on my return. Then I will take up my political fight again; and will hold to it for some time."

Mr. Sherman expressed himself as agreeably disappointed by the condition of the country in the South, and many signs noticeable everywhere of improvement since his last visit.

Trouble Anticipated.

YOUNGSTOWN (O.), March 10.—An injunction was issued this morning restricting the striking employees of the Pennsylvania Railroad from interfering with trains. The strikers are now in secret session. It is expected that the company will send a force of men here today to operate yard trains, and a conflict is feared.

Co-operative Topolobampo Steaks.

A co-operative boarding-house is being established in Woodland by families who are tired of doing their own cooking. Has Topolobampo no temptations? "Integral co-operation" boarding-house steaks is pretty nearly as bad as smallpox.

PACIFIC COAST.

San Carlos Apaches Commit Depredations.

Assemblyman La Blanc Explains His Alleged Game of Clinch.

Northern Citrus Belters Organizing a Borrowed Boom.

Santa Ana Bound to be a Railroad Center.—The Assembly Passes Wetmore's Dynamite Bill, but Won't Adjourn—Big Budget of Coast News.

By Telegram to The Times.

PHOENIX (Ariz.), March 10.—[By the Associated Press.]

The Morning Gazette publishes an account of Indian depredations in the Superstition Mountains. The victim was a pancher named Reeves, whose mutilated body was discovered by San Carlos scouts, who were pursuing renegades. The scouts overtook the renegades in camp, when a fight ensued. All the renegades and their horses and equipments were captured. One scout was wounded. The news was brought here by a stage driver, who says that the Indians were nine in number, and made for the Tomba country. The scouts are in pursuit. These Indians are without doubt San Carlos Apaches, and will probably be killed or driven back to the reservation by the military.

SACRAMENTO.

Assemblyman La Blanc's Case—The Library Investigation.

SACRAMENTO, March 10.—[By the Associated Press.]

In the Assembly this morning, Mr. La Blanc arose to a question of privilege regarding his arrest, yesterday, on charge of embezzlement, and made a long statement to the effect that he had not intended to defraud his attorney; that in his contested election case he had been under heavy expense and had offered his lawyer \$500, which was more than one-half of the sum allowed La Blanc. He said that the arrest had irreparably injured him.

Speaker Jordan said he had spoken to La Blanc when the latter refused to give his attorney the \$400 allowed for counsel fees, and had thought of bringing the matter to the attention of the House, but as Mr. Bull, La Blanc's attorney, was the Speaker's law partner, he had concluded not to.

Mr. Knox, of the Committee on Elections, said that in La Blanc's statement of expenses was the item of \$750 for attorney fees. This was reduced to \$400. When Mr. Knox spoke to La Blanc concerning his refusal to pay the money over to Bull, La Blanc said he defied the authority of the Speaker and House in the premises.

Mr. La Blanc again rose and emphatically denied this. All he had told Mr. Knox was that he would not be bulldozed by the Speaker.

DON'T WANT TO ADJOURN.

The Committee of Conference reported tonight in favor of adjourning at 1 o'clock tomorrow afternoon. The Senate adopted the report, but the Assembly, after debate, refused, by 47 yeas to 25 nays. The Assembly also declined to permit the introduction of any resolution relative to this subject.

THE STATE LIBRARY INVESTIGATION.

The committee which has investigated the affairs of the State Library reports that it exonerates the librarian from any accusation of having appropriated to his own use any public moneys, but they find that his method of administering the financial duties of his office was very lax and unbusinesslike.

GONE HOME.

The Senate has granted Senator Bowers, of San Diego, leave of absence for the rest of the term.

THE BRANCH NORMAL SCHOOL.

The Governor has approved the act to establish a branch normal school in the northern part of the State.

LEGISLATIVE PROCEEDINGS.

Senate.

SACRAMENTO, March 10.—[By the Associated Press.]

The Assembly Bill, providing for the organization and government of water districts was finally passed.

The majority report of the Committee on Elections was presented. It awards to Conklin \$1818, to Ryland \$2585, to Crimmins \$1000, to Williams \$500, to McDonald \$1,000, to Gude \$500, to Girvin, the reporter, \$380, to the sergeant-at-arms \$144; total \$7908.

On motion of Mr. Murphy, consideration of the report was made the special order for this evening.

The bill relating to fish and game was finally passed.

Messrs. Haynes, Chandler and Caminetti were appointed a committee to meet a similar committee of the Assembly to determine upon some time for adjourning sine die.

Adopted.

The conference committee on adjournment reported that both houses had agreed to adjourn at 1 p.m. on Friday.

A resolution to adjourn at that hour was adopted.

Assembly.

SACRAMENTO, March 10.—[By the Associated Press.]

The Assembly adopted a resolution by Mr. Carr stating it to be the judgement of the Assembly that the fixing of retail liquor licenses belongs exclusively to the Supervisors of the different counties.

Vrooman's Dynamite Bill was finally passed by unanimous vote.

Mr. Elisworth's constitutional amendment exempting volunteer firemen from poll-tax was defeated.

HAPPY SANTA ANA.

The Town Will Become a Railway Junction Station.

SANTA ANA, March 10.—[By the Associated Press.]

The town of Orange is excited over the report that the Atchison, Topeka and Santa Fe Railroad would locate the junction of the Riverside, Los Angeles and Santa Ana Railroad at Orange. Three surveys have been run, one to Anaheim, one to Orange, and one to Santa Ana. The original intention was to make Anaheim the junction of the two roads, but the plan has been abandoned. The latest survey makes Santa Ana the shortest distance from Buena Vista, and this survey will be adopted, and Santa Ana will form the junction for both railroads. It is rumored that as soon as the Southern Pacific Railroad Company have secured a right of way through the San Joaquin Ranch, construction work will immediately follow.

VITICULTURAL.

The State Convention—Commissioner Wetmore's Successor.

SAN FRANCISCO, March 10.—[By the Associated Press.]

At the State Viticultural Convention today a debate took place on

"Cooperation among winemakers." After a long discussion a resolution was offered that a committee be appointed to confer with capitalists, and formulate plans for the formation of a co-operative wine company in San Francisco. It was not adopted, on the ground that it was too broad in its scope.

WETMORE'S SUCCESSION.

John H. Wheeler, formerly secretary of the State Viticultural Commission, has been appointed chief executive officer, to succeed Charles A. Wetmore, resigned. Clarence J. Wetmore has been appointed to fill Mr. Wheeler's vacancy.

THE NORTHERN BELTERS.

Oroville Starts in to Get Some of the Southern Boom.

OROVILLE, March 10.—[By the Associated Press.]

A meeting of leading business men and citizens of Oroville was held last evening, in the courthouse, to organize a board of trade and to take steps to secure a branch of the Normal School, and also to keep in Los Angeles a permanent exhibit of Butte county's fruit. The board of trade was organized, to be known as the Oroville Board of Trade, with C. L. Loti president, E. W. Fogg treasurer, and S. C. Boynton secretary.

For the permanent exhibit, at Los Angeles of Butte county's fruit, Mr. Ralph Rogers donated free of charge his two large offices on Main street, Los Angeles. A committee of five were appointed to gather and send fruit there.

For the Normal School, one man donated ten acres of land on a beautiful site, overlooking the Fresno river and \$50,000. The citizens will endeavor to increase the amount to \$100,000, at least. A committee of three men, over half a million dollars, were appointed to solicit subscriptions.

PETALUMA'S BOARD OF TRADE.

PETALUMA, March 10.—The citizens met to organize a board of trade. Mr. Walsh, of the City Trustees, was chosen temporary chairman, and W. F. Shattuck secretary. Addresses were made by I. S. Wickenshire, A. L. Whitney and M. W. Souder. They will meet tomorrow evening for permanent organization.

Baldwin's Ultimatum.

SAN FRANCISCO, March 10.—E. J. Baldwin was shown the second reply made yesterday by Mr. Morrissey, regarding the proposed race between the latter's Montana Regiment and the former's Volante. To this Mr. Baldwin said: "I have nothing further to say in answer to Mr. Morrissey, only to reiterate my previous answer. If the conditions contained therein are accepted, it ends the matter, as I previously stated."

THE GOLDEN MURDER TRIAL.

SAN FRANCISCO, March 10.—During the trial today of Alexander Goldenson, charged with the murder of little Mamie Kelly, Edward Goldenson, a brother of the defendant, for refusing to answer a question as to the defendant's sanity, while on the witness stand, was fined \$500 for contempt of court. In lieu of payment the court ordered the witness to be imprisoned in the County Jail for 500 days.

CANADIAN PACIFIC BLOCKADED.

VICTORIA (B. C.), March 10.—The Canadian Pacific blockaded and all trains are cancelled. Passengers who have been on the way have returned and will take the Northern Pacific. Ten days' mails have accumulated, and will likely be forwarded via the Northern route. Heavy slides of snow and earth have occurred, and it is not known when trains will run again.

COMPETITION ENDED.

OUR NEIGHBORS.

Colton.
READY FOR THE CITRUS FAIR.
COLTON (Cal.), March 10, 1927.—[Correspondence of THE TIMES.] Colton is putting on her best clothes and getting ready for the crowd of visitors. Tomorrow morning the citrus fair will be opened, continuing two days.

Already there is enough of a display to warrant a satisfactory exhibit.

A commodious new storehouse opposite the depot is used for a hall, and the specimens of Southern California, unequalled in the world, are being put in position.

The ladies of the W. C. T. U. have erected a pavilion between the depot and the exposition, where an abundance will be furnished the hungry at small prices.

The weather is fine, the air genial and warm, while the surrounding mountains, on every side, wear their white caps of snow.

A visit will doubtless pay the readers of THE TIMES. Colton will do her best. Riverside will doubtless be here in force.

Florence.
SOCIALITY AND ROOMS.
FLORENCE, March 10.—[Correspondence of THE TIMES.] The stories aloft nowadays regarding the small-pox, if printed, would make a volume of decidedly mixed reading. People are apt to be "more scared than hurt" in such cases, and yet they cannot be too careful.

Parties at Florence are talking of putting streets through their premises, and thus create a genuine boom. They seem to be slowly heaving their iron, so to speak, to "strike when the iron is hot."

Green Meadows is also sweltering under a hot sun.

On last Thursday night a good sprinkling of intelligent Florence citizens met at the cosy house of Mr. and Mrs. Everett Thaxter for a social and lively time, which was the result.

Elsinore.
KEEPING UP WITH THE PROGRESSION.
ELSINORE, March 10.—[Correspondence of THE TIMES.] This place is moving along regularly and steadily, keeping pace with the rank and file of its neighbors in the march of progress and improvement that is so characteristic of the colony system of Southern California.

The lake, the coal mines, the new railroads, the real estate sales, and all that it takes to make a boom is here; and last, but not least, the newcomer is with us. We would not disparage any other place, but see Elsinore before setting for good.

Pasadena.
Over 350,000 feet of lumber was shipped into Pasadena over the L. A. & S. G. V. R. R. last week.

We were informed that in the ladies' floral meeting, yesterday, a unanimous protest was entered by the Pasadena Public Library without a ladies' parlor. It seems to be about the universal opinion.

At the meeting of the Sons of Veterans Camp last night, W. A. Dunbar was elected captain and afterwards installed by Lieut. Col. W. E. Darroct. Preparations are on foot, and we expect soon to see the camp well supplied with cadet rifles. The Sons of Veterans are steadily increasing in numbers and strength.

At the meeting of ladies in Williams' Hall yesterday afternoon it was decided that Pasadena would not be represented in a delegation at the Los Angeles floral fair. Another meeting was called for the following Monday, at 3 p.m., to decide whether or not to arrange an exhibit for Pasadena.

The meeting of those interested in forming a real-estate exchange was attended by about thirty agents, and the matter was discussed favorably, with the result that a committee was appointed to formulate a plan of organization and prepare bylaws.

This committee is composed of W. L. Carter, C. O. Brown, T. P. Lukens, E. D. Hough and W. T. Clapp. A second meeting will be held at 8 o'clock next Monday evening, at 8 o'clock to hear the committee's report and to perfect the organization. The main purpose of the exchange was stated to be to furnish property-owners a responsible medium through which they can make known their wants, and to form rules that will place the real-estate business upon a more regular basis. All licensed dealers are requested to be present at the next meeting.

Star, March 8.
The Colorado-street railway is now extended to San Pascual street on Hill avenue, and service began Monday on the new line, four round trips being run each day from the corner of Hill and Colorado.

George Kienly hands us the following sales, which were made of a forty-nine-foot lot on Colorado in eight months. It has been the lot changed hands eight times within that period, at a net profit each time: First, \$22.50; second, \$20; third, \$45; fourth, \$62; fifth, \$70; sixth, \$77; seventh, \$105.

One G. W. Edwards, a traveling showman, who visited this city a few days ago, jumped his bill at this office. He has a cheap stereoscopic outfit, and makes a business of illustrating the Old and the New Testaments—a sort of moral and religious affair; at least, that is what he calls it. He claims to have been an editor, therefore we presumed he was honest. We warn other offices and people against him. He is certainly a dead beat and unworthy of credit on earth, and when he dies ought to go to that country where they don't wear overcoats, not even in the winter season. Pass him around. Kick his worthless carcass and send the bill to us.

San Diego Points.
[San Diego Star, March 8.]
Ground has been broken for the new marine ways and dry docks on Coronado Beach. The location is a little to the left and almost adjoining the Coronado wharf. The Beach Company is also erecting a large planing mill, where all kinds of cutting, dressing, matching, etc., will be done. The building is of wood, 164 feet long by 64 feet wide. A neat brick structure, with iron roof, at the west end of the mill, will accommodate the engine, boilers, etc., and a three-room frame cottage, near the eastern end, will be used as the office.

A rather novel system of banking was introduced into the public schools yesterday. Credits will be given each scholar for good deportment, good scholarship, etc., and each of these will represent a deposit of \$1 in the school bank. Marks of demerit will be given for misconduct and imperfect recitation, and each of these will represent \$1 upon the debit side of the bank account. The bankbook, at the end of the term, will indicate the standing of the pupil. If a pupil should be perfect in deportment and scholarship during the entire school year, it is possible for him to attain a credit which shall represent \$1000.

LETTERS FROM THE PEOPLE.

It Appeals to Heaven.
LOS ANGELES, March 10.—[To the Editor of THE TIMES.] Whereas, an appeal to the health officers and the police is of no avail, we try to draw the attention of the public in general to the filthy condition of the lots between Saineval and Ducommun streets, in a densely-populated district. There is on Alameda street, near Saineval, the hide house of Mr. Cesar Cohen. In the rear of it is an extensive yard, where the hides are spread out to dry, exhalating an odor strong enough for anybody. Besides that, there is a mature pile of other rubbish in one corner, which has not been removed since a year ago. Hoping to see something done, I remain respectfully, in the name of residents,
JOHN FORSTER,
No. 24 Saineval street.

No. 424.
LOS ANGELES, March 10.—[To the Editor of THE TIMES.] We desire to call the attention of the proper health officers to a nuisance existing on the premises No. 424 New High street. An inspection will convince them of the immediate necessity of an improvement thereon. By calling attention to this matter you will confer a great favor upon
MANY RESIDENTS.

That Tour.
The Philadelphia Evening Item of March 2d contains the following:
Mr. George E. Baldwin, a prominent carriage manufacturer of Los Angeles, Cal., with his beautiful bride, arrived in this city last evening. They are on their wedding trip, and on leaving here will go to New York, Boston, and on their homeward journey will stop in all the principal cities.

Mr. Baldwin is fortunate in his bride. She is a lovely wife, being beautiful, graceful and of excellent manners. The young lady is the niece of Mr. H. J. Hartwell, one of our best and most beloved citizens.

A Real Estate Sample.
An estimate may be formed of the continually-increasing value of property here in Los Angeles from the following circumstances: About three years ago Mr. C. Mondon, promoter of the Mondonville tract, sold a five-acre lot to Mrs. Popplewell at the price of \$150 per acre. Last July this lady resold this property to W. Y. Wilson for \$800 per acre. On Wednesday last this gentleman sold to C. Mondon the same five acres at the figure of \$600 per acre. Now one cannot find a piece of ground in that neighborhood to be had at less than \$1000 to \$1200 per acre.

Board of Supervisors.
THURSDAY, March 10.
Board met pursuant to adjournment. The time for hearing the viewers' report on the Santa Ana and Trabuco road was set for April 7th, at 10 a.m.

A petition was granted to change the boundaries of New Hope and Westminster by taking section 17, township 5 south, range 10 west, from Westminster Road district and adding it to New Hope Road district.

The County Assessor was allowed twenty-eight deputies for the month of March at \$50 each.

Adjourned to March 11th, at 10 a.m.

Monsignor Capel.
Monsignor Capel will lecture this (Friday) evening at 8 o'clock in Armory Hall on "Home—the School of Great and Good Men." Proceeds for the benefit of the Catholic church to be erected at Pasadena.

Tickets can be had at Chalmers' Catholic book store, Second street, below Main street.

Freese County's Exhibit.
Strangers in Los Angeles should not fail to visit the Freese County exhibit at No. 313 N. Main street, and see some of the products of "Fruit Freese," get information, and learn the value of the products of the county, where the climate and soil is the best, where water is abundant and where the land is cheap.

A Chance for Big Money.
Is offered by us in a beautiful quarter section of land, 160 acres, at \$100 per acre. Immigration and Land Co., 25 Temple street.

C. E. DONAHUE.
Greener.
Removed to Callaghan block, Spring and Third.

Every well-dressed man should wear Bagley's perfect-fitting shirt, collars, cuffs and neckwear.

Large assortment of traveling and tourists' shirts at Bagley's & Co., 50 North Spring street.

H. H. WILCOX.

SPECIAL LIST.
No. 100—10 acres on Washington st., a
short distance from the new street car
line, now being laid; border of 8 rooms;
well, windmill and tank; small barn;
500 bearing apple and peach trees, 20
cane trees, 1 acre vineyard and
variety of small fruits; place is well
fenced, well improved and among the
most beautiful for a home in the city.
Price, \$1000.

No. 101—8-room house, nearly finished,
barn, chicken house, corral, water in
house, fine lawn, trees, flowers, etc.;
lot 100 ft. wide, border of 8 rooms;
No. 102—Dwelling, new, 8 rooms, bath
and closets; splendid location; fine
view; lot 100 ft. wide.

No. 103—Choice land near end of electric
railway and adjoining Arlington
Highway; very desirable for subdivi-
sion into acre lots for villa residences;
will be sold at a bargain.

No. 104—Plat lots in the Judson tract, at
from \$1000 to \$1500 per lot.

No. 105—Fine ranch, near city, 10 acres,
all level land, fine soil, small orchard;
house of 8 rooms, good well, windmill
and tank, barn, corral, shade trees,
etc.; a bargain for only \$1000 per
acre.

One hundred acres very choice for
land, free from frost, desirable for
raising winter vegetables; requiring
no irrigation; the finest land in the
State; improvement will divide it
2 miles from city limits; on payments;
per acre.

This land is especially desirable for
cultivation; will produce from two
to four crops per annum, owing to the
various seasons of planting, such as
tomatoes, peppers, peas, beans,
cabbages, etc.; \$100 per acre net profit
is a fair estimate on each acre. The
sum was realized per acre the present
season from this winter vegetable land;
water tomatoes will yield much more
than \$100 per acre net and melons and
potatoes will average that amount; we
plant tomatoes in August, potatoes in
October, November and January, and
then follow with melons, on the same
ground, which will bring a net profit
of \$100 per acre net, without one drop of
water; this soil will remain moist the
entire year by proper cultivation; no
water will make a man wealthy in a few
years if properly cultivated; must be
seen and investigated to be appreciated.

Part of the above tract has recently
been sold to parties who will at once
erect residences thereon.

Twenty acres on Pico st., at terminus of
the electric railroad; suitable for sub-
divide into lots; for sale at a bargain.

Twenty-three acres near Villa Villa Col-
lege; beautiful and elevated; very de-
sirable to subdivide into city lots; the
best bargain in Los Angeles; for sale,
cheap.

Three fine University lots 63x100 ft., fine
soil, very desirable location, having the
University of Southern California, church,
and good view of the city; also, a
splendid residence, excellent society and the finest
drive in the city, at the very low price of \$500
to \$600 per lot; terms easy; if you see these
lots you will purchase them.

A few fine building lots on Grand ave.
We have a very large list of desirable
property of all varieties, as cheap as any in
Los Angeles. Give us a call before purchas-
ing. We will gladly show you what we have
for sale, and we will not knowingly misrep-
resent to any one. If you have desirable
property for sale at a fair price, let us see it.
We are selling more property now than ever
before. We are not retiring, nor are we trying
to keep our office open and our business
for the accommodation of working men and
strangers, and to all who will give us a call we
are welcome.

BUSINESS.

OFFICE OF THE TREASURER.
LOS ANGELES, Wednesday, March 10.
There were no changes in quotations at the Produce Exchange today.

The following is the latest from the Chicago market for California fruits:
CHICAGO, March 10.—Receipts of Oranges from California thus far this week continue light, and the quality of the fruit arriving is much better than that received earlier, and of much finer color. Oranges have been to create a greater demand, which is not participated in by consumers. The market here is still very strong, and the market here. The market here is becoming stronger daily for fine fruit, while the lower grades of Oranges are easy and are fast clearing out. The following is the range of prices for California Oranges: Riverside Navela, \$2.50 to \$3.00; Riverside Seedlings \$2.00 to \$2.50; and Los Angeles Seedlings \$2.00 to \$2.50.

Stocks and Bonds.
By Telegraph to the Times.
New York, March 10.—Money on call, easy at 1/4%; closed at 1/4%.
Prime mercantile paper, 1/4% to 1/2%.
Sterling exchange, dull at 4 1/4% for 30 days; 4 1/2% for 60 days.
Government bonds were dull and steady.
The stock market was less active today, and presented few features of interest. The opening was quiet and firm, the first prices showing advances of 1/4 to 1/2 percent. Generally the market was firm. There was no demand for the market. The market was firm at the end of the first hour, and the entire list weakened under the lead of Lackawanna. In the afternoon a period of dullness and stagnation resulted, lasting till nearly 3 p.m., when a decided weakness was developed, and the lowest prices were recorded about 3:30, after which a slight rally occurred, and the market closed quiet and firm. The majority of the stocks are lower than yesterday, but the changes are from a fraction only.

"JAY-EYE-SEE."

A WELL-KNOWN RACINE MILLIONAIRE VISITS US.

The Owner of the Fastest Gelding in the World and the Fastest Stallion—His Impressions of Los Angeles.

J. I. Case, of Racine, Wis., whose name is well known all over the country as a raiser of fine horses, and the owner of Jay-Eye-See, is stopping at the Pico House with his wife and his daughter, Miss Hattie Case.

Mr. Case is a very quiet, unassuming gentleman of apparently some sixty years of age. Last evening he pleasantly greeted a TIMES reporter, who desired his ideas upon some topics of interest. Said Mr. Case:

"I left Chicago last Thursday, with my family, for a visit to your Golden State. We came over the Atchafalpa road, and I was not very favorably impressed with the country we passed through after leaving Kansas. Such a vast stretch of seemingly worthless country as we passed through from there till we reached Los Angeles does not convey much of an idea of California to the tourist who has never been in the State. Yes, I was here some thirteen years ago, and I tell you I am amazed at the change that has taken place since that time. I had no apprehension of any such development.

"If I had known how the country was to improve I might have been rich now. [This is unfortunate, as Mr. Case has only a few millions between him and the poorhouse now.] At that time some friends and myself drove out into the San Gabriel Valley hunting white pigeons, and found only the residences of Mr. Case and two others there. Now the whole country is covered with orange groves and beautiful homes. Well, I am thinking some about investing out there, but prices seem rather high. Yes, I think this portion of California is only beginning to develop. So long as your water and climate hold out your must go ahead. There are many people in the East who desire a more equable climate than can be found there, and have means to seek it. There is a much more general trend of travel from the East, this way, than there was a few years since, because we have competing railroads and our people have always had a high estimate of California.

"Yes, I am still manufacturing, and am also interested in fine horses somewhat. The J. I. Case Threshing-machine Works and J. I. Case Plow Works, of Racine, are two establishments to which I devote my attention, and I have some pretty good horses. Jay-Eye-See is the fastest gelding in the world, and Phyllis the fastest stallion. I have one hundred horses on the catalogue of my farm near Racine, and have a third interest in the Glen View stock farm in Kentucky. I bought the farm in Lexington, Ky., at two years of age, for five hundred dollars, and now consider him worth thirty thousand dollars. Phyllis cost me the same (five hundred dollars), and I value him at forty thousand dollars.

No, I am not interested much in running horses. Mine are trotters. I bought a two-year-old last fall that we drove in 2:34, and I think he could go in 2:28.

California sends some very fine horses East, and they get their full share of the prizes. The horses of Messrs. Stanford, Rose and others hold their own with us. You have some advantages over us in breeding horses here. The colts can be foaled two or three months earlier, and they grow the year round. But Kentucky has always taken the palm for fine horses, and does not like to yield it. Mr. Rose has invited me to visit him, and take a look at his horses, and I shall avail myself of it. I should like to buy myself a home here. The reporter here arose, and thanking Mr. Case for his courtesy, took his departure.

Progressive Euchre.

A progressive euchre party was held at the Bellevue Terrace last night. The following were the winners: First prize, Mr. Woodruff and Mrs. Idings; progressive prizes, Mr. Taylor W. English and Miss Lizzie Roberts; the booby prizes, Mr. Routh and Mrs. J. N. McKinley. The following composed the party: Miss Y. Y. Y., Dr. Roper, Routh, Cash, Lizzie and Jennie Roberts, Bryant, Louis, Kent, Plash, Torpey, Myrick, Bostwick and Baldwin; Messrs. J. W. McKinley, Idings and Heath; Messrs. J. W. McKinley, Woodruff, J. F. Blake, T. Kelly Newhart, Lieut. Goodin, U. S. A.; English, Routh, Matlocks, Blanchard and A. O. Blake.

For the Supreme Bench.

A petition was in circulation yesterday, to which, at a late hour in the evening, the names of a large majority of the bar have been attached, urging the appointment by the Governor of Col. George H. Smith to the vacancy on the Supreme Bench of the State caused by the death of the late Chief Justice Morrison. A meeting of the bar will be held in Department 3 of the Superior Court on Saturday next, at 10 o'clock a.m., for the purpose of taking further action in the matter.

A Detective Agency.

A branch office of the Pacific Coast Detective Agency, of San Francisco, has been opened in this city at 220 North Main street, rooms 9 and 10. The agency has agents in Arizona, New Mexico, Texas, Oregon, Nevada, Washington Territory, and various parts of California. A uniformed merchants' patrol will at once be established here. F. R. Kupper, who is in charge here, was for some years a sergeant of the New York detective force.

Saved from Shame.

Constantine Ed. R. Smith went up to San Francisco, yesterday, taking the little Chinese girl Tsou Yui, who was rescued from a life of shame by the interference of the proper authorities here. She will be cared for by the 'Boys' and Girls' Aid Society of San Francisco.

Who's Lost a Balloon?

San Bernardino is greatly worried over a big balloon, with three persons in the basket, which passed over that city last Sunday, coming from the direction of Cucamonga, and disappearing in an easterly direction. Goodness only knows whence it came or where it landed.

Wanted, 500 to 2000 acres of land, with water, suitable for fruit-growing, within 15 miles of Los Angeles. Price must be very low. Would be a cash transaction. Address P. O. Box 92, Los Angeles.

Orange Trees.

Choice Washington Navel and other varieties, for sale by Phelps & Waite, 134 N. Main street, Los Angeles, Cal.

Elsie Reynolds's materializing séance this Friday, 2 p.m. Fifty cents. 353 South Spring street.

M. Morley, No. 3 South Main street, has 50 bunches of ripe bananas at 20c. a dozen.

Dr. Kiger continues to vacillate at 32½ South Spring street.

Drink Jackson's Napa Soda for the kidneys.

Napa Soda for dyspepsia and indigestion.

Real Estate.

ARLINGTON HEIGHTS.

OF WASHINGTON STREET, 100 FEET WIDE. The future great boulevard from Los Angeles to the Pacific Ocean.

We offer, as a free gift, 24 \$300 lots to any one who will build a \$20,000 hotel; also, one \$500 lot to a purchaser of a lot who will build a \$1250 house on ARLINGTON HEIGHTS.

The plateau of ARLINGTON HEIGHTS offers the most magnificent view to be beheld in Southern California, embracing the whole of the Los Angeles Valley and extending from San Pedro and Santa Monica on the Pacific Ocean, across the plains to the foothills, and up to the snowy heights of the Sierra Madre Mountains. This tableland, or mesa, is perfectly level and unbroken, but 60 feet higher than the elevation of Spring or Main streets. To reach it there are no hills to climb, and as the streets leading from the center of Los Angeles city up to it follow the same even grade it is as easy of access as Washington Gardens. The soil of ARLINGTON HEIGHTS is a rich loam, mellow and friable all seasons and easy to cultivate. The vineyards and orchards surrounding it give undoubted evidence that every acre of ARLINGTON HEIGHTS will produce grapes and fruit without irrigation. A stratum of purest well water is struck anywhere on the tract at a depth of from 10 to 60 feet. The plateau of ARLINGTON HEIGHTS is unequalled for health. A gentle breeze from the Pacific Ocean (sea) daily; sea fogs never reach its elevation, and frosts being almost unknown on the "mesa," the most tender plants, such as tomato vines, bear fruit there every day of the year. The Santa Monica branch of the S. P. R. R. runs alongside this elegant tract; the present terminus of the electric street railroad is distant one-half mile from ARLINGTON HEIGHTS, and it is expected that it will be extended to and through ARLINGTON HEIGHTS. A free carriage is running from the electric road to ARLINGTON HEIGHTS, and the two-horse street-car line is now being extended through Washington street to an easy walking distance from this elevated plateau of ARLINGTON HEIGHTS terminates in a ridge or descent of 40 feet just south of Adams street, and a similar ridge north of Fico street. On these ridges are located the most magnificent building sites in Los Angeles. No houses ever built high enough to front of them to obstruct that glorious view of mountain, valley and ocean; from Catalina Island to San Jacinto Peak, and down again over the broad acres, orchards and vineyards, of fair Los Angeles Valley, to the blue waves of the Pacific Ocean beyond the city of Santa Monica. Whosoever wishes for a beautiful home sheltered from the noise and bustle of a busy city, but within a twenty minute ride of the Plaza, should select in ARLINGTON HEIGHTS a lot of 5½ acres whereon to build his house.

During the last few years it has occurred frequently that men have bought five or ten acres in Los Angeles, sold it at a profit for the price of the whole, and retained valuable grounds for a home, thus free of cost. Such chances are offered to you in ARLINGTON HEIGHTS. Every city has its one fashionable suburb, not too distant from the center of activity, yet near its social and business life. ARLINGTON HEIGHTS, through a happy combination of advantages, promises to become what St. Cloud is to St. Paul, and Richmond to the city of London.

ARLINGTON HEIGHTS hitherto was one vast body of land of nearly 700 acres. Our map shows a magnificent subdivision of it into 5½-acre blocks, 60x120 feet, including streets, each containing 24 lots 120 or 240 feet, and each surrounded on all sides by streets 60, 80 or 100 feet wide. Investors who are able to appreciate the importance of a well-planned tract, with its miles of wide streets, intersecting each other at right angles, and with its lawns and stately mansions of the rich will be found here within a short time, and purchasers who take advantage of our low prices and easy terms will reap a golden harvest of their investment in ARLINGTON HEIGHTS.

For further particulars and maps apply to the office of THE ARLINGTON HEIGHTS LAND AND WATER COMPANY, 25 W. First st., upstairs, cor. First and Spring, Or to McCARTHY'S, 23 W. First st., Or to R. TURNER, 111 W. First st.
